PROFESSIONAL SUMMARY

Detail-oriented Full-Stack Developer with extensive experience in building responsive, user-focused web applications using HTML, CSS, JavaScript ES6, React.js, Next.js, Tailwind CSS, GraphQL, Node.js, Express.js, MongoDB, and Bootstrap.

Well-versed in leveraging AI technologies to enhance application performance, automate processes, and deliver innovative solutions. Passionate about clean UI, high performance, and practical problem-solving, with a strong focus on delivering smooth and efficient user experiences.

A reliable team collaborator with clear communication skills, strong attention to detail, and a continuous learning mindset toward modern tools, technologies, and best practices.

EXPERIENCE

12/2025 – Present
Remote

Frontend Developer

SIGNOUT

- Designed and implemented responsive UI for a nationwide digital signout platform for graduating students.
- Built key features such as searchable signout posts, dynamic signout feeds, user profile viewing, and profile management.
- Optimized user experience by ensuring fast load times and intuitive navigation across pages.
- Worked collaboratively in a team environment using React.js, JavaScript (ES6), TailwindCSS, Artificial intelligence (AI), HTML, and CSS.

07/2025 – Present
Remote

Frontend Developer

Chosen Visuals

- Developed responsive, cross-device web layouts for the team, ensuring consistency, usability, and performance.
- Translated UI/UX designs into clean, maintainable, and interactive interfaces using modern frontend technologies.
- Worked closely with designers and team members to deliver pixel-accurate implementations and smooth user experiences.
- Contributed to improving page structure, responsiveness, and overall interface quality.
